## How to use the WUR AppStore on a MacBook

If you use a **MacBook** and want to use your own laptop for the course software, you first need to buy Windows 11 Education and Parallels Desktop on SURFspot.nl. This allows you to run Windows on Mac. Please note that not all applications might function as they would on a Windows device.

This manual explains how to buy Parallels.

**1**. Get the free Windows 11 Education from SURFspot by following the manual <u>How to get</u> <u>Windows Education</u>
