

How can I use the WUR AppStore

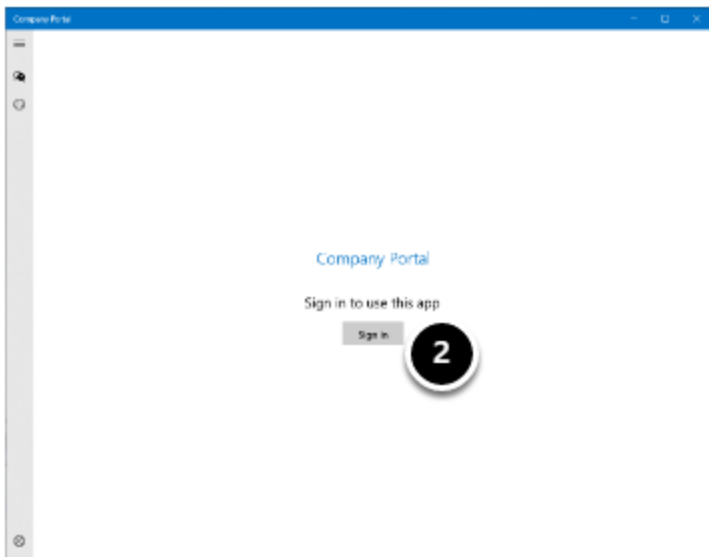

In the WUR AppStore you can download study and course software for computer practical's and self-study.

This is a general manual how to use the WUR AppStore. The software assigned to you will be visible in your store.

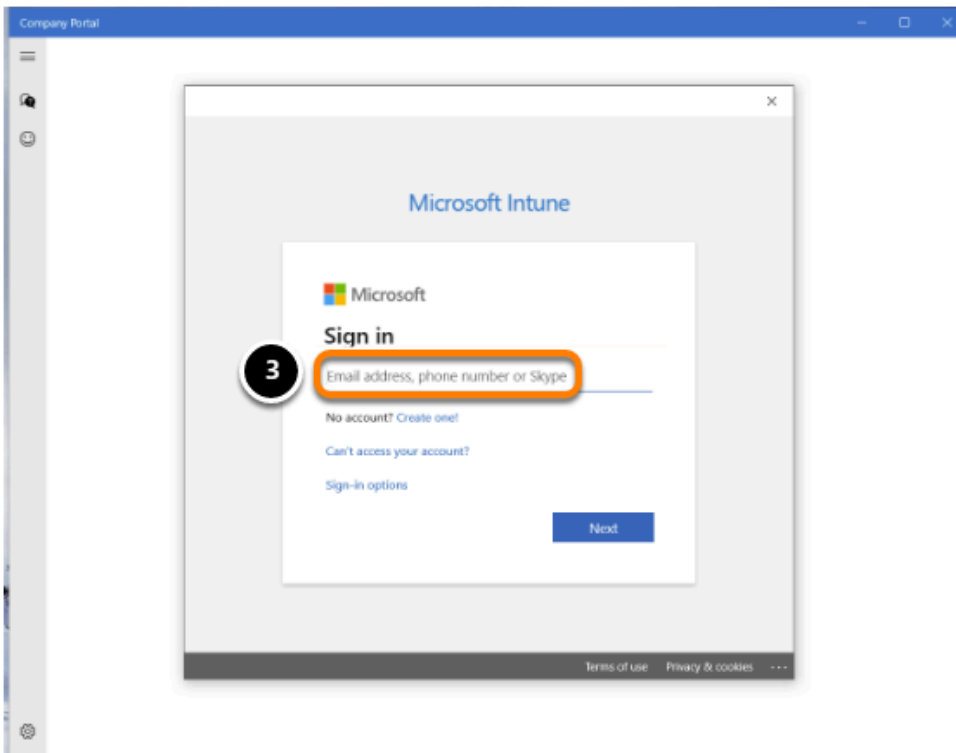

1. Click on **Start** / **Company Portal** (*Bedrijfsportal* in Dutch), this is the WUR AppStore

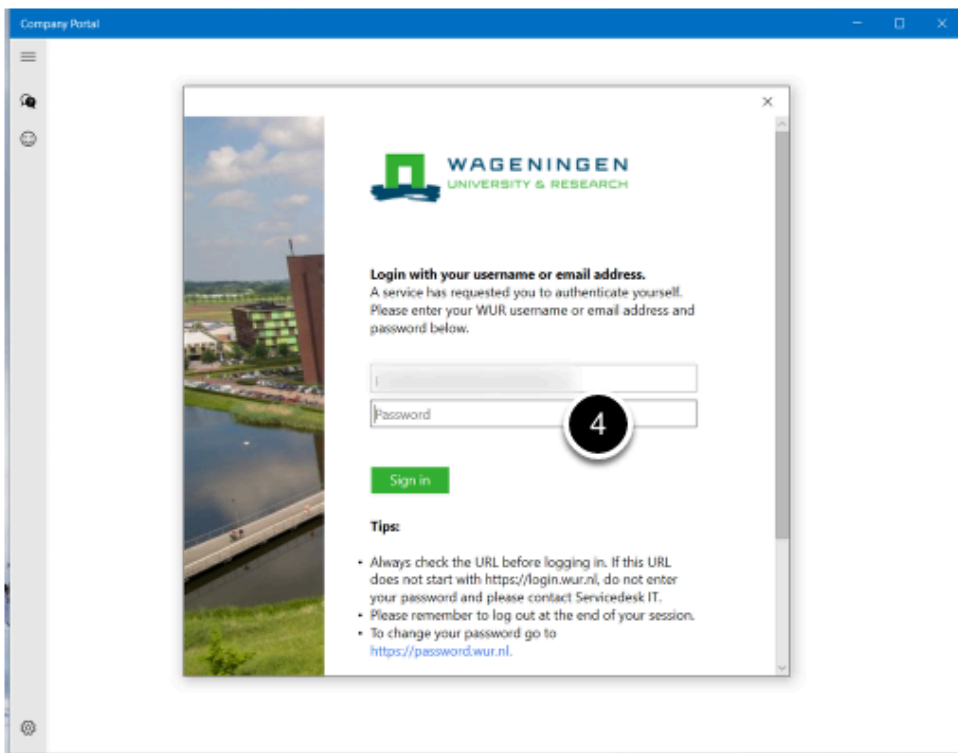

- i** Be aware that after connecting your WUR Account to your laptop, it could take a while before the Company Portal will become visible in your menu. After around 45 minutes and a restart of your computer, the Company Portal will become visible.

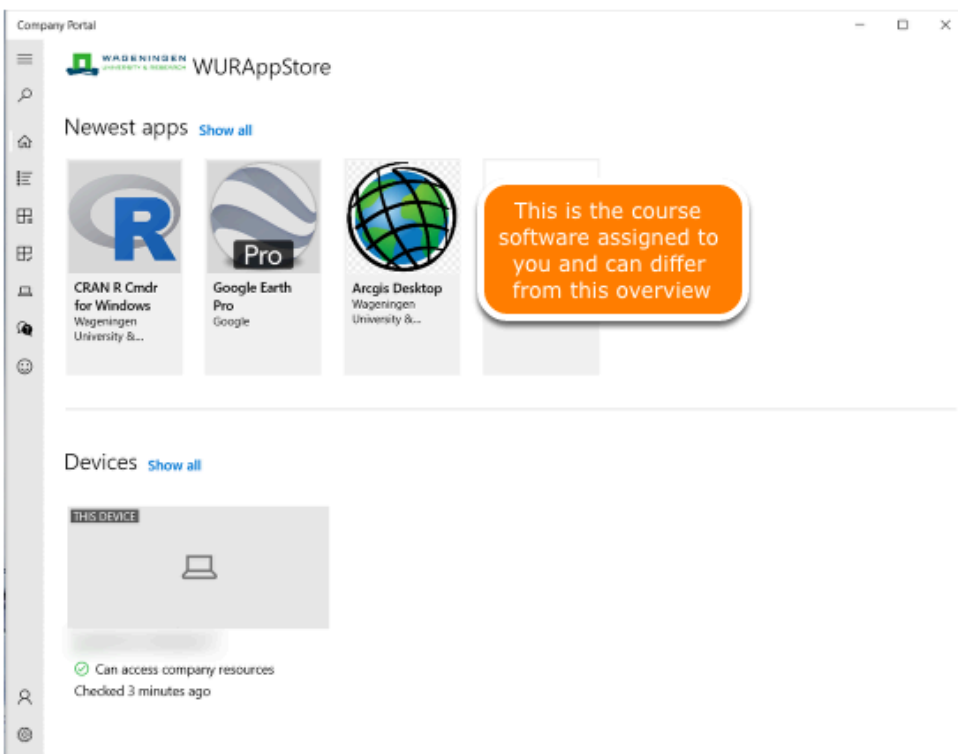

2. Click on **Sign In**

3. Enter your WUR email address and click on **Next**

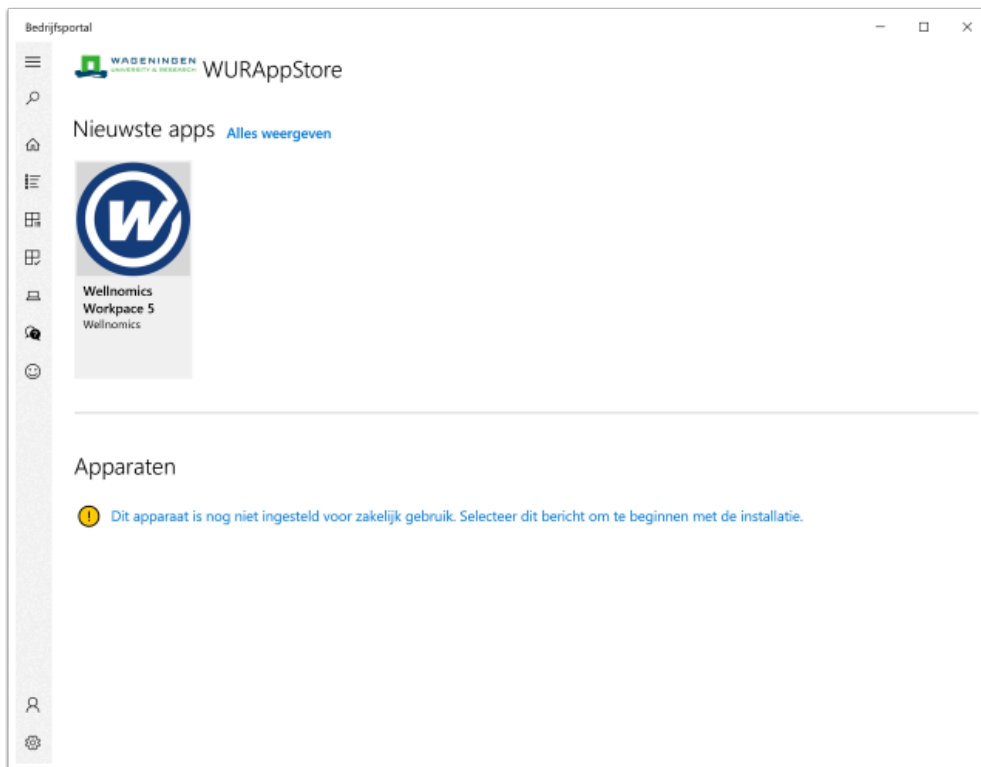

4. Enter your WUR password and click on **Sign in**

5. You now see the homepage of the WUR AppStore. Click on the course software '**App**' you want to download

6. Click on **Show all** to get an extensive overview of all the software apps available to you

- i** If you do not see the software app you need for your course, or get the notification that your IT administrator has not made any apps available to you, please follow the steps below.

7. If you get a notification that your laptop is not yet enabled for business use, as the notification in the screenshot (which is in Dutch), click on this blue notification to start the installation.

Een werk- of schoolaccount instellen

U krijgt toegang tot resources als e-mail, apps en het netwerk. Wanneer u verbinding maakt, past uw organisatie of school mogelijk bepaald beleid toe op uw apparaat waardoor u bijvoorbeeld niet meer alle instellingen kunt wijzigen. Neem contact op met de systeembeheerder voor meer informatie.

We kunnen een beheereindpunt dat overeenkomt met de ingevoerde gebruikersnaam, niet automatisch ontdekken. Controleer uw gebruikersnaam en probeer het opnieuw. Als u de URL van uw beheereindpunt weet, voert u deze in.

8. Enter your WUR email adress and the copy the following link in het MDM-server-URL box:

<https://enrollment.manage.microsoft.com/enrollmentserver/discovery.svc>

 Now you can follow the manual [How can I download the software to my laptop.](#)
